

CODE: IKAB

PROGRESS REPORTS

The Committee recognizes the school's obligation to report student's progress regularly and believes that these reports provide vital communication between the schools and parents.

A formal report depicting the student's progress will be issued quarterly in grades 1-12. Kindergarten reports will be issued twice each year. Principals will develop procedures for teachers to report student progress during the marking periods throughout the school year.

In addition to these reports, the Superintendent will ensure the development and implementation of a system that will implement policy JIC.
