

**STUDENT HEALTH SERVICES AND REQUIREMENTS**

All school personnel will work together with the school physician and nurse to create a healthful learning environment for students. They shall exercise due care to see that proper conditions of heating, lighting and sanitation exist.

In addition, the following health services will be performed:

The height and weight of each child will be recorded annually.

Physical examinations are recommended for all children entering Kindergarten, grade five and grade nine.

Physical exams will be offered to all children entering Kindergarten through spring registration, at no charge, and in the fall to all ninth grade children for a \$5.00 fee.

All immunizations will be offered at no charge, on parent request and documented need, at Kindergarten spring registration.

The vision and hearing of each child will be screened annually in grades Kindergarten through five and again in grades seven and nine. Any concerns raised at these screenings will be expressed to the parents in writing immediately.

Annual scoliosis screenings will be provided for grades six and eight. Any concerns raised at these screenings will be expressed to the parents in writing immediately.
