

# **Welcome!**

## **Kittery School Department**

### **Educating For Life**

Welcome to the Kittery School Department website. We hope this resource brings you the information you need about our four schools and our district efforts and accomplishments. The Kittery School Department provides a strong educational program to 1010 students in its four schools. The Mitchell Primary School in Kittery Point serves students in grades Kindergarten-2; the Frisbee Elementary School serves students in grades 3-5; the Shapleigh Middle School serves students in grades 6-8; and R.W. Traip Academy serves students in grades 9-12. The Kittery School Department also offers adult and community educational opportunities to all Kittery residents.

The Town of Kittery supports life long learning in its Kindergarten through Adult Education students as well as a Head Start Program in the schools. The Kittery School Department offers a spectrum of learning opportunities to meet the individual needs of all students in regular and special education programs. We strive to ensure that the best qualified staff work with our youth. In addition to the academic achievements, Kittery continues to excel at a full range of co-curricular activities including sports, theatrical/musical presentations and academic competition.

As a school department, we are very proud of our accomplishments and we continue to seek ways to improve our students' present and future success.

Please tour our website. We welcome your comments and any suggestions you may have to enhance the usefulness of the information we present here.
